Salvation

Chimaira

Endless nights filled with misery
Sick of familiar patterns
Bruise after cut
Can't wash away my scarsThis is the night of salvation
(Salvation)
On the night of salvation
(Salvation)This life always painted me
Tired of the same routine
All the lies I've told
Can't hide the little thingsThis is the night of salvation
(Salvation)
On the night of salvation
(Salvation)Life has been left behind me
I will not cower away
Cower awayAdrenaline is stronger than ever
Feel it all come together
Adrenaline is stronger than ever
Feel it all come togetherOn the night of salvation
(Salvation)
On the night of salvation
(Salvation)Life has been left behind me
I will not cower away
Cower awaySalvation
Salvation
Salvation
