Is It For Me

Toad The Wet Sprocket

Bradley says it's haunted
The house upon the hill
And if we meet at four a.m.
Then we would know for sure

We carry the ladders
And lean them against it
And climb them as we look

Someone kicked a ladder
Bradley took a spill
Said his leg was broken
So we dragged him down the hill

And through the door
What do I see?
Something is happening
Is it for me?

Mom found out the whole thing
Mine was first to call
Bradley's leg healed badly
At least he still can walk

We leave in the morning
And no one will hear us
And meet in the clearing
And I'll bring the sandwiches

David come quickly
You're missing the whole thing
Now open your big eyes
And take in the sunrise

And through the door
What do I see?
Something is happening
Is it for me?
