Yesteryear

Rosi Golan

Advisory - the following lyrics contain explicit language:

Please remember we will meet in memory
I'll ask about your day you will ask toYou've wanted to be with me
Since the moment that I laughed
And so much time has passed us by
We'll promise thatIf this is what we get
Then let's make the most of it
We can dance around the clouds up hereAnd we'll be what might have been
Close our eyes and just pretend
That we are back again in yesteryearAnd so with every breath
I'm breathing in to regret the day I left
And I can feel it now
My heart is like an empty houseWhere we used to lay together
Past the break of day
Now the days have passed us by
And dreams have passedIf this is what we get
Then let's make the most of it
We can dance around the clouds up hereAnd we'll be what might have been
Close our eyes and just pretend
That we are back again in yesteryearIf this is what we get
Then let's make the most of it
We can dance around the clouds up hereAnd we'll be what might have been
Close our eyes and just pretend
That we are back again in yesteryear
