

Conspiracy Theory

Jamal Al-Amin

Conspiracy theory
Better keep it down
'Cause the walls are thin
And the word is out now
 Lock your lip
 Don't you make sound
 'Cause the walls are thin
 And the word is out now
 Better that you didn't know
 Better that they didn't show, that's right
 Probably need to live in fear
 Knowing that the threats are real this time
 Conspiracy theory
 Gonna make you shake
 Don't hit the brake
 No time to waste now
 Like it or leave it
 Better hit the road
 'Cause the one we know
 Is gonna fade away now
 Better that you didn't know
 Better that they didn't show, that's right
 Probably need to live in fear
 Knowing that the threats are real this time
 Conspiracy theory
 Conspiracy theory
 Conspiracy theory
 Better keep it down
 'Cause the walls are thin
 And the word is out now
 Lock your lips
 Don't you make a sound
 'Cause the walls are thin
 And the word is out now
 Better that you didn't know
 Better that they didn't show
 Probably need to live in fear
 Knowing that the threats are real this time
