

# The Last Year

**Stiv Bators**

(Bators - Secich)

this is the last year of my life  
can't seem to do much more than i've done  
gone and used up all the fun  
and the alternative is none  
this is the first time i've realized  
i loved believing all your lies  
and didn't mind it when you cried  
i plan on living just to die  
this is the final year  
i'm living out the very last year  
the end is flashing on the screen  
i'm living in the last year of my life
