

Everyday Will Be Like a Holiday

William Bell

Everyday will be like a holiday
When my baby
When my baby comes home Now she's been gone
For such a long time
Ever since she's been gone
She been on my mind I got a letter today
Just about noon
She said, "Don't worry
I'll be home soon" And everyday will be like a holiday
When my baby
When my baby comes home I'll never have to worry
About sitting by the phone
When she gets here
I'll never be alone She said she'd get here
Sometime today
I know when she gets here
She'll never go away And everyday will be like a holiday
When my baby
When my baby comes home Oh, everyday will be like a holiday
When my baby
When my baby comes home
