

Hold You

Orchestral Manoeuvres In the Dark

To hold you
Love you
See you smile at the break of day
To touch you
Know you
Want you by me.
When you're far away
It's easy to say
But hard to do
When you're in love
With some foolish child
And everybody
Just can't understand
They say, see him, watch him
He will change his mind
But I see you
Want him
You're always with him
... When the lights go down
You need him
Love him
He promises
He'll always stay around
It's easy for me
When the daylight's here
It's easy to be happy
When I'm in the crowd
But maybe someday
I could take his place
I want you, need you
I won't change my mind
But he holds you
Loves you
He has you with him
At the break of day
He'll touch you
Know you
Wants you by him
Though you're far away

If all these things you say are true
There's just one thing I need to know
Is this love or lies, just a flame or a fire
There's something I need and only you can help
To hold you
Love you
See you smile
At the break of day
To touch you
Know you
Want you by me
When you're far away
To hold you
Love you
Have you with me
When the lights go down
To see you
Need you
Promise me
You'll always stay around
