

In the Night

Blackfoot

Whoa ho, Oh yeah Yeah, I got a woman, oh lord
Sweet as she can be
Im a workin man, I work as hard as I can
Oh you got a hold on me Kind of woman, yes,
She can handle her hungry man
She can shake the sheets to a rockn roll beat
Lord with her music man In the night, Ohhh beside
Take it to the end hmmmmm
Oh in the night
Stands bright. Ohhh for love
Ooooh, in the night I love my nightlife
Yes, just a me and my friends
Love the way it feels to slide down the wheel
Oh take it home to the end Take my chances
To have some other lover too
When the sun comes up, Ill be in her loving cup
Oh to turn the dark sky blue In the night
Time is right oh for loving hmmmmm
Oh in the night
Sky is bright. oh for love
Yeah baby, yeahhhh Whoa hoaint I got no worries
The futures lookin brighter every day
Well I lover her a lot, cause shes all that I got
Wouldnt want to give her away My milk and honey
ooh She can have some other lovin too
But I shake the sheets to a rockn roll beat
Oh that turn dark sky blue In the night
Time is right
Yes honey, for loving hmmmmm
Yeah, yeah
Oh in the night
sky is right ooh for love
Wooh in the night
