

# Tracksuit

## Jebediah

Well I don't want to make things bad But these last few weeks are the worst I've had And that's really sad, it's really sad, you know - woah! And I didn't want it to end that way Because I knew what we were gonna say Like on a winters day, but that's okay Don't give me your friends Because I've got my tracksuit ready on So we could sort this thing out, lifes a rolling stone Yeah they're driving me round the bend I just wanted some time alone And I'll show you things that I feel inside So I'll take you for an elephant ride Yeah that's what I'll do, cos I like you And I don't wanna let things slide Aaaaahhhhhhh..... So I hope everything's alright I just turn out the light and fall asleep Without a peep Because I know I won't see you tonight And when I wake up with my tracksuit on Well then I'll know that you've been away too long So I'll play a song, I'll play a song And I'll dedicate it just for you Yeah that's all that we've got in the end Can we still be friends That some day you will say you want more than that But I've been secretly holding out So I'll take you for an elephant ride And I'll show you things that I feel inside Yeah that's what I'll do, cos I like you And I don't wanna let things slide
