

Right There

Ariana Grande

(If you wanna party, if you, if you wanna party)
Then put your hands up
Then put your hands up 2x
You got, you got babe 3xSean don
Okay, this, this, this for
For my number one girl
Who got the top spot title
Spent a hour in the bathroom
Walked out looking like a model,
God! doing what you do,
Got me right there with apollo,
On the moon
Who needs genies in a bottle girl
If they already got youBoy you make me feel so lucky
Finally the stars so align
Never has it been so easy
Tell me you love
And to give you
This heart of mineYou know what I need, aye
I know what you like, aye
Put it all together baby
We could be alright
How could this be wrong
When it feels so right
Yeah I really love you
I really love youAnd I'll never let you go...
You should know
I'm never gonna change
I'm always gonna stay
You cover me right there (right there)
Right there (right there)Cause you listen and you care
It's all different
No one compares
And if you never change
I'm gonna stay right there (right there)
I'll always be right thereYou got it, you got it babe 2xAnd I can't pay the price
Just thinking
About you boy
You're on my mind

Sometimes I catch
Myself daydreaming
Lost in your eyes
And I lose all track of time You know what I need, aye
I know what you like, aye
Put it all together baby
We could be alright
How could this be wrong
When it feels so right
Yeah I really love you
I really love you And I'll never let you go...
You should know
I'm never gonna change
I'm always gonna stay
You cover me right there (right there)
Right there (right there) Cause you listen and you care
It's all different
No one compares
And if you never change
I'm gonna stay right there (right there)
I'll always be right there (What okay what)
Now if all fell through
Would you catch me
Before the pavement (what)
If my benz turned
Back to public transportation
Would you still be at home
Home for me with the candles waiting
And get my mind back
Adjacent the place of young visionary
A player too
You know I have some girls missionary
My black book
And numbers thicker
Than the dictionary
And Bible I got to recycle
I love and like you
Five course meals even
Though you don't mind a drive-thru
That's why I got you And I'll never let you go...
You should know
I'm never gonna change
I'm always gonna stay
You cover me right there (right there)
Right there (right there) Cause you listen and you care

It's all different
No one compares
And if you never change
I'm gonna stay right there (right there)
I'll always be right there (If you wanna party, if you, if you wanna party)
Then put your hands up
Then put your hands up 2x
You got, you got babe 3x
