

Live For The Music

Bad Company

Some people say I'm no good
Laying in my bed all day
But when the night times comes
I'm ready to rock and roll my troubles away
I don't care if the sun don't shine
I know I'm gonna see it trough
I don't care what nobody says
I tell you what I'm gonna do
I'm gonna live for the music
Give it everything you got
Live for the music
You know you're gonna find a lot
To ease your mind
Now you may say I'm a mean mistreater
Say I never treat you right
But sooner or later I'm gonna get to you baby
I don't wanna fuss and fight
Now hey baby gimme good lovin'
Do it to me all night long
Any old thing gonna make me happy
Long as I can sing my song
I'm gonna live for the music
Give it everything you got
Live for the music

You know you're gonna find a lot
To ease your mind yeah
Yeah now live for the music
Give it everything you got
Live for the music
You know you're gonna find a lot
To ease your mind
Gonna live for the music
Give it everything you got
Live for the music
You know you're gonna find a lot
To ease your mind
Live for the music
Give it everything that you got

Come on baby live for the music
Give it everything that you got
Hey, give it everything, give it everything
Give it everything you got
Give it everything, give it everything
Give it everything that you got
Get out on the floor
Dance and dance some more
Come on, come on, come on baby
Come on, come on, come on baby
Yeah, yeah
