# Dead Inside

## Youth in Revolt

Call the doctor
This is a tragedy
A deadly poison
Without a remedy
Intoxicated just a taste
to make it right

Look in the mirror
see what you have become
This monster you created
This war you have begun

Wasting away
In the shame of my mistakes
Crossing these bridges as they burn up into flames

This emptiness
that settled in
I feel it crawl beneath my skin
So dead inside
(So dead inside)

Nightmares infecting me
Making it hard to dream
It's getting harder just to breathe
Give me something to believe!!

Something to believe!!

Not sure how much I can endure
And death is knocking at my door
But I'm still swallowing the very thing
that's killing me
Watch my body hit the floor

And when your world comes crashing down
There won't be anyone around
To save you from yourself

Open your eyes

'Cause this life is a suicide
Make up your mind
You know this isn't your time to die
You'll say
Where did it all go wrong?
When you wake up to find
That everything you love is gone
---
