

I Did (feat. Feather)

Jeremih

She told me do her body right, I did
She said she want me spend the night, I did, I did
She want me hit it when she wake up, I did, did
She said "Boy don't you mess my hair up", I did, I did Yeah her body be calling, I be on that mission
She like the position, waking the neighbors
Got 31 flavors, I'm doing her favors
She doing them tricks, she just did a splits
God dammit she thick
Scream my name when I hit it, wrote my name on her sheets
I did it, I did it She told me do her body right, I did
She said she want me spend the night, I did, I did
She want me hit it when she wake up, I did, did
She said "Boy don't you mess my hair up", I did, I did Yeah her body be calling, I be on that mission
She like the position, waking the neighbors
Got 31 flavors, I'm doing her favors
She doing them tricks, she just did a splits
God dammit she thick
Scream my name when I hit it, wrote my name on her sheets
I did it, I did it I did, I did And my mind runnin' around, racing
Don't stop, no need to pace it
Waterfall like she in the Caymans
Pussy so good, I almost came in
Whip it like she work it in the kitchen
Hit it from the back, doing the dishes
Now I'm kissing her on the kitten
Told her not to scream, she didn't listen You're the only one I want hittin' it
Head to hick, come huddle up with me
Touch me like no other man touch me
I don't care for no nigga this way
Camera phone, I turn it off for you
I will never turn you off boy
I just wanna lay in your arms
When you're mine, know there is no more She told me do her body right, I did
She said she want me spend the night, I did, I did
She want me hit it when she wake up, I did, did
She said "Boy don't you mess my hair up", no, I did, I did Yeah her body be calling, I be on that mission
She like the position, waking the neighbors
Got 31 flavors, I'm doing her favors
She doing them tricks, she just did a splits

God dammit she thick
Scream my name when I hit it, wrote my name on her sheets
I did it, I did it
