Life Is a Train

Maren Ord

February came and went
It was then that I decided I should leave
Now I'm sitting at this trainstop
Nobody's around here it's just me

Thoughts of you run through my head
The life we could've shared is left unsaid
I'm still sitting at this trainstop
Burlington's not too far from my head

Life is a train
Filled with pleasure
Filled with pain
Hey Conductor take me away

Life is a train
I think I'll take this ride again
Hey Conductor take me away oh oh oh

Summer heat has left remains
But today it seems to look like it will rain
I'm still waiting at this trainstop
Three more hours 'till he comes again

Seems my life has come undone
Waiting here until it comes

Life is a train
Filled with pleasure
Filled with pain
Hey Conductor take me away

Life is a train
I think I'll take this ride again
Hey Conductor come and take me away

Away na na na na na
Come and take me away

Seems my life has come undone

Waiting here until it comes

Life is a train
Filled with pleasure
Filled with pain
Hey Conductor come and take me away

Life is a train
I think I'll take this ride again
Hey Conductor take me away

Life is a train
Filled with pleasure
Filled with pain
Hey Conductor take me away

Life is a train
I think I'll take this ride again
Hey Conductor come and take me away

Na na na na oh oh

'Cause life is a train
I think I'll take this ride again
Hey Conductor come and take me away

Hey Conductor come and take me away

Hey Conductor take me away yeah
