Forevermore

Picture Me Broken

All I feel is everything
I can?t invent the words to tell you
I never cared for anything
But if you left I?d never let you
I?d hold your heart inside a death grip
Till my fingertips turned bloody black and blue

The rest of this heart lies in your darkened eyes, awake
I?ll never lie, never leave, so I can always say
You wont be alone again as long as I?m awake
So never lie, never leave, forevermore with me

This became a part of me, your blood is in my veins, once incomplete
Promise to have faith in me, retrace your steps you?ll always find me
I found you one foot out the window pane
I?m never too far out of reach, escape

CHORUS

Forevermore
I?ll follow your
Every word until
My eyes can?t see
Till my lungs can?t breathe
Till my heart wont beat anymore

CHORUS
