

Come Forth

Angelic Foe

Questioning everything that we say
Back and forth with the life we've made
Don't listen when the other side speaks
Leave me beLeft as though I can see through
The mind-sided, it shivers with joy
I have overcome you
I have overcome youThanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waitedComfort is arriving now
Thanks for nothing
I have waited
Comfort is arrivingWhat a beautiful sight unseen
Never felt the welcomed surprises
Breathe new air and pull away
Far from youIf you even apologize
It's pointless if you ask me
I am one with myself
I am one with myselfThanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waitedComfort is arriving now
Thanks for nothing
I have waited
Comfort is arrivingThanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waitedComfort is arriving now
Thanks for nothing
I have waited
Comfort is arrivingThanks for nothing
I have waited
Comfort is arriving now
