

Truth

Lecrae

This is the chance, you need to jump back
(Jump back)
We got the truth, you know, you want that
(Want that) All the confusion you can dump that
(Dump that)
We reppin' Jesus 'til he come back
(Come back) This life is it with no skins and thicks and no sense of blood trauma
We got Jesus when they feel' they think we drunk, dawg
All o' because we be wildin' and jumpin', screamin' now 'Represent'
Get crunk, throw it up, what's up Jesus? You know we reppin' Him People called to chosen but our hearts were
froze
Rollin' with Satan, Mayne
Tryin to trust in the lust in the flesh and our eyes
Our pride was hatin', Mayne But our God is rich in mercy, 'Mercy, great in Love
We were dead in sin but Christ bled for sin
And that's why He raised us up
Now our life looks bright in the sight of the Almighty Christ paid the price, it's all right
He gave His life that we all might
Be saved from our plight
And we don't have to guess what's next
When death comes right up at our door We'll be excited to go, it's the delight of our soul
That's why I'm pressin' ya'll, don't be second guessin', ya'll
Every breath we breathe inside of heaven is a blessin', ya'll
So I ain't stressin' ya'll, this is confession, ya'll
Jesus is the Truth, that's why me and my crew be reppin', ya'll This is the chance, you need to jump back
(Jump back)
We got the truth, you know, you want that
(Want that) All the confusion you can dump that
(Dump that)
We reppin' Jesus 'til he come back
(Come back) Right back in the cup, what's up?
I'm still goin' plead my case ta' God
Christ is the Savior by whose sin has been erased for ya'll
Okay, I'm chasin ya'll but don't think that I'm crazy, braw
'Cause there's an abundance of grace
That I'd like to explain to ya'll, look, don't trip What to eat, what to drink 'cause you know God got this
See once you know Him, you're adopted in
At this point God is your Father
Call Him Abba, Pappa, Fadja, Fadja, Fadja Come on now, we're collected and chosen

Predestined just to behold Him
Now I've got drow from my shoulders all down to my Achilles'
I don't need money forever, he'll self eternal inheritance
Spiritual rags ta' riches like Beverly Hill Billies'
So I spend a coupla' days and been amazed
Me tryin' ta' figure out the jist of this
God saved and forgave me, I ain't have ta' work a lick for this?
And you might just trip on this aside from these
benefits
You know the God who made us from dust
And plus He'll make the change in this
(Body) This is the chance, you need to jump back
(Jump back)
We got the truth, you know, you want that
(Want that) All the confusion you can dump that
(Dump that)
We reppin' Jesus 'til he come back
(Come back) What an honor' despite the drama life has to offer
We follow the Father, not flirty mommas and dirty dollars
So keep the comma 'cause really we don't believe in that
Psychic folks and horoscopes, no, we won't be needing that
Hey, dawg, where Jesus at? 'Cause I been fiendin',
black
Ta' see His face at the Second Coming, I mean in that
It's 'cause I'm heeding that, called that He gave me to
Learn His ways and turn and pass it on to a faithful few
That's why I'm lovin' the life that I'm livin' so I could
preach the Truth
Teach the youth and I pray that God this is reaching You
I'm seeking to explain things that may seem Greek to you
God desires our satisfaction to be in Jesus, dudeee
Believe me you or believe you me, just believe in this
A life reflecting the glory of God you need in this
In a moment, in a second, in a twinkling of an eye
All the dead gonna rise and we gonna fly
This is the chance, you need to jump back
(Jump back)
We got the truth, you know, you want that
(Want that) All the confusion you can dump that
(Dump that)
We reppin' Jesus 'til He come back
(Come back)
