

It Amazes Me

Blossom Dearie

My height, just average
My weight, just average
And my IQ is like you'd estimate, just average
But evidently he does not agree
Consequently if I seem at sea
It amazes me, it simply amazes me
What he sees in me dazzles me
Dazes me
That I've learned to clip my wings
And soften my ways
These are ordinary things unworthy of praise
Yet he praises me
Just knowing I try for him
When so many would
If they could, die for him
I'm the one who's worldly wise
And nothing much fazes me
But to see me in his eyes
It just amazes me
I'm the one who's worldly wise
And nothing much fazes me
But to see me in his eyes
It just amazes me
