## It Amazes Me

## **Blossom Dearie**

My height, just average My weight, just average And my IQ is like you'd estimate, just average But evidently he does not agreeConsequently if I seem at sea It amazes me, it simply amazes me What he sees in me dazzles me Dazes meThat I've learned to clip my wings And soften my ways These are ordinary things unworthy of praise Yet he praises myJust knowing I try for him When so many would If they could, die for him I'm the one who's worldly wiseAnd nothing much fazes me But to see me in his eyes It just amazes meI'm the one who's worldly wise And nothing much fazes me But to see me in his eyes It just amazes me
