

# Symmetry

## The Mary Onettes

Stop this, you're never going to find it  
When you complicate, you are left behind but  
Longing, steals away the night  
And steps away from eyes that are always searching  
This time, you can feel his voice  
And he's never going to stop until it sinks in deeply  
Falling, consecrated lies  
And you're letting go with time, 'cause you're through with keeping  
Is it so real? Never gonna stop till you want it, want it  
Is it so real? Never gonna stop  
'Cause we're moving with a symmetry  
And we're crashing like the waves in the sea  
And we're moving to your heart this time  
Release  
'Cause we're moving with a symmetry  
And we're crashing like the waves in the sea  
And we're moving to your heart this time  
Release  
Crashing, feel the way we move  
Open up your eyes to the things around you  
Haunting, take away the tears  
'Cause you know that your heart is so close to beating  
This time, you can feel his voice  
And He's never gonna stop until it sinks in deeply  
Falling, consecrated lies  
And you're letting go with time, 'cause you're through with keeping  
Is it so real? Never gonna stop till you want it, want it  
Is it so real? Never gonna stop  
'Cause we're moving with a symmetry  
And we're crashing like the waves in the sea  
And we're moving to your heart this time  
Release  
'Cause we're moving with a symmetry  
And we're crashing like the waves in the sea  
And we're moving to your heart this time  
Release  
Is it so real? Never gonna stop till you want it, want it  
Is it so real? Never gonna stop till you want it, want it  
Is it so real? Never gonna stop till you want it, want it

Is it so real? Never gonna stop  
'Cause we're moving with a symmetry  
And we're crashing like the waves in the sea  
And we're moving to your heart this time

Release

'Cause we're moving with a symmetry  
And we're crashing like the waves in the sea  
And we're moving to your heart this time

Release

It's so real

You are, you are
