

Northern Rd.

Intergalactic Lovers

The narrow road leading to nowhere, the four of us in a big old car. The way you're driving it's making me
nervous, the road is long and there's no way out.ooh-ooh-ohh
ooh-ooh-oohThere are no breaks and we can't stop, the only way out is a long way down. its a lost road with
odd intersections.

High above the cold cold northern sea.Chorus

*

Oh we are driving we are driving, we are driving too fast oh we are we are driving, we could crash.Starting fire,
fire when we crash.

Starting fire, the fire when we crash.

*Outside it's too cold for men to live. The sea is loud and it drives you mad. But it's ok 'cause we're in this
together.

Yea, it's ok 'cause we're in this together.So here we stand no sense of direction. Our Warm bodies trying hard
to move on. How did we end up so far from each other. When did the madness set in?*Chorus**Chorus*The
fire when we crash.

The fire when we crash.
