

Venus & Mars

Army of Lovers

I saw a star
Venus and mars
The sky
Across the rainbow
I find my halo
Venus and marsI saw a star
Venus and mars
The sky
Across the rainbow
I find my halo
Venus and marsThe clock of time the night of doom
An angel passing through my room
Dark shadows fade the lights away
Like birds of preyI saw a star
Venus and mars
The sky
Across the rainbow
I find my halo
Venus and marsI saw a star
Venus and mars
The sky
Across the rainbow
I find my halo
Venus and marsThe sun the moon the flaming sky
A wandering star in heavens high
Tonight we dream on broken glass
Oh razzmatazzI saw a star
Venus and mars
The sky
Across the rainbow
I find my halo
Venus and marsI saw a star
Venus and mars
The sky
Across the rainbow
I find my halo
Venus and mars
