

In My Arms

Dead By April

Don't look down, don't look back
I am beside you, close your eyes, know I'm here
I know it's hard to let go all that defines you
You feel like you'll never be whole again
We will find a way to erase the past
Stay with me, stay with me
In my arms you'll be fine, I'll never let go
All you've lost will come again, just stay here with me
Never look back, never again, it's over
Everything ends here in my arms
Don't give in, don't let your memories break you
Let me take you away from here
We will find a way to make this last

Stay with me, stay with me
In my arms you'll be fine, I'll never let go
All you've lost will come again, just stay here with me
Never look back, never again, it's over
Everything ends here in my arms
I'll be here forever, everything ends
Here in my arms, I'll be here forever
Everything ends here in my arms
I'll be here forever, forever, forever
In my arms you'll be fine, I'll never let go
All you've lost will come again, just stay here with me
Never look back, never again, it's over
Everything ends here in my arms
