

# Pushing On

**Oliver \$ & Jimi Jules**

With everything that goes on  
When I never thought it would get worse  
There always seems to be something more  
That pushes me away Pushing on  
Can't stop now I relive, I remember, it sticks and it stays  
All this time spent alone recapping the days  
Pace myself, push myself  
Pushing on, I'm all I've got I won't let it stop  
But I've got to slow down  
Slowly I will rot  
Looking out for all I keep around I can't stop now  
I can't stop now
