

# Let the napalm rain

## Dismember

Indoctrination since early youth  
Murder of the free thinking mind  
Religion the root of all evil  
The source of all suffering Deeper and deeper into the void  
Across the wasteland of your mind  
Lying to live, living their lie  
They make you betray your own kind Life of agony  
You have chosen your way  
Self induced misery  
You are led astray The free will shall carry the day  
Drop the bomb and wash the filth away  
Let the napalm rain Step into the sickening light  
Into ruins of heavenly might  
Embide yourself in their moral vanity  
Sell your soul to insanity Religion is an excuse  
For a lack of character  
Something to fall back on  
When all else fails Islam, Hindu, Christianity  
It's all based on lies  
There is no key to paradise  
Believe in yourself and all gods die
