

# I Want to Live

Demis Roussos

I want to live  
Where they'll change what they have done  
    Yeah  
    I must die  
    cold and shunned by the sun  
    YeahWhy should I stay  
    Where there are people that hate  
        The things I need  
        and making me wait  
yeahThey will teach you the hows instead of the why's  
    They will turn your truth into liesI feel like crying  
    when I'm groping for a way to stop it from going  
        cause I want it,  
        want it to stay  
    Yeah
