

# Days & Nights

Daley

Broken pieces  
Left with out feeling, again  
And it won't be the last time  
Much broken theory  
As love's legs run weary  
Over empty space  
And the troubles that remain  
In your hair  
On your skin  
Behind your eyes when you sleep  
As you wonder if you'll ever love again  
Through these Days and nights, spent alone, thinking of no one  
The factory, of you and me, diminished long ago  
Tick tock, head lock  
Time is all I've got to show now  
Days and nights, spent alone, thinking of no one  
Save the tears, maybe we're, better off alone  
But if you like, you can try to revive my smile,  
This could be what I need  
But it could amount to nothing  
And I've come too far for things to come undone  
For what it's worth, I'm sorry  
I wish someone could love me  
But it's the consequences that I'm running from  
Through these Days and nights, spent alone, thinking of no one  
The factory, of you and me, diminished long ago  
Tick tock, head lock  
Time is all I've got to show now  
Days and nights, spent alone, thinking of no one  
Save the tears, maybe we're, better off alone  
But if you like, you can try to revive my smile,  
Love proof  
Empty now  
Learning how to live without  
Brick by brick  
Pulled apart  
The disassembly of a heart  
Lights on, lights off  
As the days and nights blur into one  
Through these Days and nights, spent alone, thinking of no one  
The factory, of you and me, diminished long ago  
Tick tock, head lock  
Time is all I've got to show now  
Days and nights, spent alone, thinking of no one  
Save the tears, maybe we're, better off alone

But if you like, you can try to revive my smile
