

# Reflect

## Tomorrows Bad Seeds

Wake up feelin empty from last night  
you threw your feelings away  
Take a good look in the mirror  
are you stuck here with the person you see  
And if you're havin doubts then wash your face  
and make sure your hands are clean  
Cause at the bottom of the bottle's not the answer  
but the problem you'll see

What makes you think, what makes you think  
you're so damn powerful, you're not invincible, noo  
What makes you think, what makes you think  
you're indestructible, no one's that powerful, noo

Addicted to the pain, you pop another one  
and swallow your pride  
Lookin for a quick fix to relax your mind  
set your feelings aside  
Living in the fast lane is a gamble  
when you're playing for keeps  
Hold your head and wonder, so confused  
you can't remember a thing

Its happening so fast, make no mistakes  
for the price you will pay  
Focus on the present  
for tomorrow could be taken away

What makes you think, what makes you think  
you're so damn powerful, you're not invincible, noo  
What makes you think, what makes you think  
you're indestructible, no one's that powerful, noo

You always wanting more  
Until you hit the floor

What makes you think, what makes you think  
you're so damn powerful, you're not invincible, noo  
What makes you think, what makes you think  
you're indestructible, no one's that powerful, noo
