

Walking on Air

Stephen Bishop

Like a bird flies from tree to treetop On the wings of a special love
I hear the sound of young hearts beating
Love is never where you think, you'll find it
All you need is the very first kiss Then you're Walking on air
Love won't let you come down
Walking on air Your feet will never touch
Walking on air
Love has finally caught you Love's a ride that can last a lifetime
You find your heart in a warm embrace
Then you can go around the world
In just 5 minutes There's so many ways to say you love her
It's so easy, once you make the first move Then you're Walking on air
Love has really hit you
Walking on air Your feet will never touch
Walking on air
And love won't let you come down Love, love, love How can you wonder if you really love her?
It's so easy once you make the first move Walking on air
Love has finally hit you
Walking on air Your feet'll never touch
Walking on air
And love won't let you Love won't let yo
Love, love won't let you Come down
I'm walkin' on air Love, love, love
