Let You Down

Light Up The Sky

When the night is cold and you're feeling all alone
Do you think about me...or am I just another boy
So just take me take me...you never wanted to save me
So just take me take me...all you wanted to do was change meI don't wanna let you down anymore
Baby would you still wait for me...wait for me...wait for me
If I'm still laying dead on the floor
Baby will you still wait for me...you'll wait for me...you'll wait for meBaby would you still wait for meEvery day I try and try and let go of these thoughts
With every inch I lose, my heart begins to fade
So just take me take me...all you want is to break me
So just take me take me...I'm the only one that can change meI don't wanna let you down anymore
Baby would you still wait for me...wait for me...wait for me
If I'm still laying dead on the floor
Baby will you still wait for me...you'll wait for me...you'll wait for meNo one will ever fucking change meEvery time I called for you
You were never there for me
Too bad you could never seeBut I've seen enough, I've had enough...this isn't the person I used to be
I'll paint my path, I'll walk the road to being meMy hourglass has run dry
And it's time for me to flip this clock
I'll shift the sand my own way
My focus is on me, my focus is not youBow down
I am the king of my own mind
But somehow I can't let you goI don't wanna let you down anymore
Baby would you still wait for me
If I'm still laying dead on the floor
Would you still wait for meI don't wanna let you down anymore
Baby would you still wait for me...wait for me...wait for me
If I'm still laying dead on the floor
Baby will you still wait for me
