Lifer

Take another hit and it makes me big again
In, out around my head again
Here and I'm never givin' up
'Cause I don't wanna leave today My situation declines
The tension rises above
Everything I see Let it go
(Go, go)
Let it, let it
Let it go
(Go, go)

You can't have everything now One more hit and I forget again
Now I'm on my back again
Down and I'm not gettin' up
'Cause I don't wanna move today My motivation declines
The temperature rises above
Everything I feel Let it go
(Go, go)
Let it, let it
Let it go
(Go, go)

You can't have everything Let it go
(Go, go)
Let it, let it
Let it go
(Go, go)

You can't have everything now You've seen this happen before
You know, it's not a mistake
If you've seen this before you'll see it again
You fell asleep when I was awake You left me blind, left behind
When all I feel is hate
And all I hate
All I've hated Let it go
(Go, go)
Let it, let it
Let it go
(Go, go)

You can't have everything Let it go
(Go, go)
Let it, let it

Let it go
(Go, go)
You can't have everything now You can't have everything now
You can't
