

Razor Blade Alley

Madness

Ooo I didn't talk too much, in fact not at all
But to ask for the price I was to be no fool
Moneys no time to waste or to shoot up the wall
Yyou got the know how, the place did you take media school
She led the way from the alley back to her house
Must not be seen going in must not be seen coming out
She said I looked mighty but thin
She told me I'm gonna give you a second helping
Ooo razor blade alley, I've been there
Razor blade alley neither of us cared
It was the prime time but the wrong place
It was my first time, I hope my last date
I'm just to shy to check in
But this pain of these razors is cutting in
Ooh felt like a knight without shining armour on at the time
She thought she was in a dream floating up on cloud nine
Now I awake, she is nowhere but the razor cuts deeper everywhere
