

# Bliss

## Delirious?

I feel lonely when it's you I miss  
I feel crazy when I dream like this  
I've traveled all this way for just one kiss  
Is it bliss, is it bliss, yes it is Rock 'n' roll is everything  
Everything to a lonely man  
And never will I bow  
To you I, I, I  
I'm not backing down  
I, I, I  
I'm not backing down Take me to the place where eagles fly  
Where my love for you I never can deny  
If I'm right then you are wrong  
If I'm wrong then I really lived  
And if I die with no rewards  
Then I know I had peace 'cause I carried the sword I, I, I  
I'm not backing down  
I, I, I  
I'm not backing down I, I, I  
I'm not backing down  
I, I, I  
I'm not backing down It's the simple things that satisfy  
Keep my feet on the ground any my head in the sky  
I love you more than I can say  
And I won't change my mind on the choices I made I, I, I  
I'm not backing down  
I, I, I  
I'm not backing down I, I, I  
I'm not backing down  
I, I, I  
I'm not backing down
