

Blood on My Hands

Demons & Wizards

And as I bear my inner soul
I've kept it hidden and safe
Fulfill the god's desire
To hold their waning flame, a sacred life
And what have started long ago
Is heading towards the end there's no easy way out
There's blood on my hands
But I'm sure in the end I will prove I was right
Runes of a long forgotten time, ancient spells in endless rhymes
Soon the other world appears
Roam to the ghostly river Rhine, leave the misty shades behind
I can feel I'm getting near
By the ancient spirits' rites, the old ghosts proclaim their rights
Still they're lost in time
By the ancient spirits' rites, the old ghosts proclaim their rights
Still they're lost in time
Lost in time
I wonder why they're lost in time
Lost in time
The curse lives on, still chasing me, it's always been there by my side
And it won't let me out
A treacherous leaf and a secret unsealed
It will cause deadly wounds
Roam to the ghostly realms at nights, cleanse the dark shades of my night
Leave the mortal world behind
Float to the endless streams of time, an eternal ray of light
Leave my mortal shape behind
By the ancient spirits' rites, the old ghosts proclaim their rights
Still they're lost in time
By the ancient spirits' rites, the old ghosts proclaim their rights
Still they're lost in time
All it seems they're lost in time
Lost in time
The blood on my hands you see
Can not be washed away
I am chosen by destiny
To dwell in misery
By the ancient spirits' rites, the old ghosts proclaim their rights
Still they're lost in time
By the ancient spirits' rites, the old ghosts proclaim their rights
Still they're lost in time
Lost in time
