Zanahoria

Another falls in place
You wonder if you're only human
It's blood, dust and paste
We're held together by a single thread
Must be a reason for us to justify it
But no one will defy it
What is it with this place?
Or is that I'm missing something?
You won't see my face
When I can't even see it for myself
Must be a reason for us to justify it
But no one will defy it
I don't want a game that I don't know how to play
Just go away
And I don't wanna know how to play
Can't I make it just go away?
Just go away, just go away, just go away
An' I don't want a game that I don't know
how to play
Just go away
And I don't wanna know how to play
Can't I make it just go away?
Don't you understand what these problems will demand?
Make it just go away
I don't want a game that I don't know how to play
Just go away, so people
Must be a reason for us to justify it
But no one will defy it
