Not All Bad

Terminal

I barely know you from a stranger
But I here now ask the friend to talk
Nothing's quite as hard
As you've been on yourself just stay hereCouldn't we all use the company when days don't last
Couldn't we stand to hear someone say we're not all badLet's catch a movie, something to make us love againLet's stay out all night go everywhere we took
Live while we're alive and take the world for more for more
When the sun is coming up and we're still hanging out
It's never been so nice to have someone around who believes in loveLet's not make it home tonight because days don't last
