Stargazer

Ken Hensley

He was a star collector
She knew about the skies
He was a tightrope walker
She was the talk of the town
While he was in the clouds
He'd show her the signs
And he'd know they mean
Twinkle, twinkle, little dream
Stargazer, heart breaker
Wish you were here
How will I shine anymore
Without your atmosphere?
My dear, stargazer
Don't disappear
How will I shine anymore
When you're not here?
She had it all and lost it
Now he's forever in space
He circles Haley's comet
And lights up the sky like a flame
Now she's the star collector
She knows the sign
And she knows what they mean
Twinkle, twinkle, little dream
Stargazer, heart breaker
Wish you were here
How will I shine anymore
Without your atmosphere?
My dear, stargazer
Don't disappear
How will I shine anymore
When you're not here?
In my every day
And the moments I wake up
Up lonely, you're the only one
Who can bring the stars for me?
Stargazer, heart breaker
Wish you were here
How will I shine anymore

Without your atmosphere?
My dear, stargazer
Don't disappear
How will I shine anymore
When you're not here?
Stargazer, heart breaker
Wish you were here
How will I shine anymore
Without your atmosphere?
My dear, stargazer
Don't disappear
How will I shine anymore
When you're not here?
