

A Little Light

[Sturgill Simpson](#)

Through all these earthly trials of sorrow, through all these days of mortal sin,
Through all these eternal nights of no tomorrow,
Gotta stay straighter than an arrow, find a little light within
Gotta walk that road, all the way to heaven
Gotta walk that road, until the dawn
Gotta walk that road all night, all we need is a little light
Every closer you get Lord, brighter it turns on
(I said the closer you get Lord, brighter it turns on)
Don't need no compass, no map or chart
I don't need no stars shining above
I don't need no nothing but a little light in my heart
Glowing inside me like a blanket of love
