Magic

San Cisco

[Verse 1: Scarlett]
First time we kissed I had a feeling
Now I only get it when I'm dreaming
What you say and what you do used to make me wanna be something
But now your words to me mean nothingIs there method to madness
I move to you like a magnet[Verse 2: Scarlett]
I keep an eye on our planets
You retrograde when I'm static
Alchemy is what you do when you think you're gonna lose me
I'm check-checking out now
I'm freaking out now, about you[Chorus: Scarlett]
Maybe we can be magic
Stuck in emotional traffic
Is this some kind of magic
I'm a sucker for your tricks[Verse 3: Scarlett]
Is there method to madness
I move to you like a magnet
Maybe we can be magic
I'm a just a sucker for your tricksI'm just a sucker for your tricks
Is this some kind of magicNa na na na
Na na na na[Chorus]
