Come Back

We Shot The Moon

Please will you come back to me?
I was a fool just to leave you hanging
If courage is all I need to find you
When will the snow melt away?
And all the pieces will fit together
Now I?ve got so much to say
And I need you
Gotta find you
Looking for an angel, are you an angel?
Looking for an angel, help!
Calling for an angel, are you my angel?
Calling for an angel, help!

Come back, come back, come back to me
I cannot make it without you
On my knees, oh won?t you please
Come back to me?
Come back to me, dear friend.
Looking for an angel, are you an angel?
Looking for an angel, help!
Calling for an angel, are you my angel?
Calling for an angel
Come back to me, dear friend
Come back to me, dear friend
Come back to me, dear friend.
