

Be My Baby

Anouk

you'll always be my forever
my affection for you is deep
from the time i wake up to the time i sleep
it's gonna be so much better when your heart belongs to me
yeah every day feels incomplete
it's hard for me to see
just the good times and not the bad
i'm trying so hard to be happy
but i dont know how to stop feeling sad
first steps on the dancefloor
i cant take it anymore
i want all of you
until we're lovers holding hands
