Its Not The Same

Carl Thomas

there's so many things i used to do
to show my love for you
i didn't mind doing any of them
you were doing them for me toobut then somewhere along the way
we both started needing space
and then further apart we stay
so the truth is what we'll have to faceit's not the same
(we don't love each other like we did)
but who's to blame
(i'd say we both had a hand in it)
i know it's not the same...x4
we both know it's not same...x2
things changethere's alot of things you used to say
to show me that you care
i specifically remember telling you
that i'd always be therebut then somewhere along the way
we both started needing space
and then further apart we stay
so the truth is what we'll have to faceit's not the same
(we don't love each other like we did)
but who's to blame
(i'd say we both had a hand in it)
i know it's not the same...x4
we both know it's not same...x2
things changemaybe we should cut our losses now
and put an end to u and i
if we can't turn this thing around
no need for us to live a lieit's not the same
(we don't love each other like we did)
but who's to blame
(i'd say we both had a hand in it)
i know it's not the same...x4
we both know it's not same...x2
things change
