

Life Is Anew

[Santana](#)

Nothing is new, they say, under the sun
But then again my soul feels a change
It feels so new
Life is an open vision of the highest, deepestBecause of you, life is new
Because of you, life is newAlone, I try to change the world
Only to find that I had bared
You came along and with the wave of your hand
You showed us the weightBecause of you, life is new
Because of you, life is newBecause of you, life is new
Because of you, I can fly in the sky, your home
