

# United

## Judas Priest

Look around  
They're movin' in  
Hold your ground  
When they begin We can do it, we can do it  
And if they wanna they can try  
But they'll never get near  
And they can keep out of here  
Gonna keep on drivin' never stop United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all  
So give me hope, don't give in  
Make a stand, we're gonna win We can do it, we can do it  
And if they wanna they can try  
But they'll never get near  
And they can get out of here  
Gonna keep on drivin' never stop United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all  
So give me love United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all United, united, united we stand  
United we never shall fall
