Ashes Of The Wake

[unknown]

We killed a lot of innocent civilians
To us every civilian in Baghdad was a terrorist
[Incomprehensible] now in civilian clothes
That makes everybody free game
But if they came in our perimeter, we lit 'em up
And when we would pull the body out
And when we would search the car, we would find nothing
This took place time and time again
No harm, no foul
That's okay, don't worry about it
Because this is a new type of war
This is an eradication
I honestly feel that we're committing genocide over here
I don't believe in killing civilians
And I'm not going to kill civilians
For the United States Marine Corp
