

## Familiar Feeling (Doctor Rockitt Comes Close Mix)

## Moloko

Nothing can come close  
Nothing can come close  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling To this familiar feeling  
To this familiar feeling Nothing can come close  
To this familiar feeling Nothing can come close

To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close  
To this familiar feeling  
Nothing can come close

To this familiar feeling Nothing can come close I never doubted it  
What's for you will not pass by  
I never questioned it

It was decided before I asked why It's all there, ever was  
And it's all there, ever will be  
How could you have questioned us?

It's yourself, you deceive Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking Nothing can come close

To this familiar feeling  
We say it all without  
Ever speakingNothing can come close  
To this familiar feeling  
We say it all without  
Ever speakingNothing can come close  
To this familiar feeling  
We say it all withoutHush now, no need to say the words  
At first sight you perfectly heard  
Love in all its entirety  
Is no less than we deserveI saw your face, some place  
I felt this feeling before  
Is it deja vu?  
Do I somehow know you?Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speakingNothing can come close  
To this familiar feeling  
We say it all without  
Ever speakingNothing can come close  
To this familiar feeling  
We say it all without  
Ever speakingNothing can come close  
To this familiar feeling  
We say it all without  
Ever speakingNothing can come close  
Nothing can come closeNothing can come close  
To this familiar feeling  
We say it all without
