

# Starlight (Hakeem Version) [feat. Serayah & Yazz]

## Empire Cast

Where the is smoke  
Theres a fire  
Burning my heartIf they only know  
Your one desire  
They world will put an end to allI will ride in the night  
On the back of your bike  
Put my hands, my hands to the sky  
So fast we could fly  
Lets leave it behind  
So alike I ain't scared anymoreHand in hand we run  
Hiding from the sun  
Under the starlight  
Till the wake up day  
My body should stay  
Under the starlight  
Under starlight  
That's right  
Fast light, tonight  
Under starlight, so bright  
Fast light, tonight
