Mixed Up

Graham Colton

Verse 1:
when you're trying to find the right words
and you're looking for a little time
you don't know which is the right way
but you've been going for a little whilewhen you're tired of making faces
and you're running on an empty heart
then you're taking off your disguise
holding on so you can play the partBridge:
keep making money cause you're falling fast
and where you're going there's no going back
I'll play along just put the note on my door
I've should have known you're climbing out the windowChorus:
singing: hold on, hold on, you got it mixed up
hold on, hold on, you know that you don't know the way
hold on, hold on, you got it mixed up
hold on, hold on, you know that you don't know the wayVerse 2:
when you're trying to find the right words
and you're looking for a little time
I don't look at you in that way
and you've been going for a little whilewhen you're trying to get your feet wet
and you're saying it under your breath
don't you feel a little lighter,
holding on to your secret?Bridge:
keep making money cause you're falling fast
and where you're going there's no going back
I'll play along just put the note on my door
I'm better off just climbing out the windowChorus:
singing: hold on, hold on, you got it mixed up
hold on, hold on, you know that you don't know the way
hold on, hold on, you got it mixed up
hold on, hold on, you know that you don't know the way(guitar solo)Chorus:
hold on, hold on, you got it mixed up
hold on, hold on, you know that you don't know the way
hold on, hold on, you got it mixed up
hold on, hold on, you know that you don't know the way
