

# Warrior

## Disturbed

I am now an instrument of violence  
I am a vessel of invincibility  
I cannot leave this undecided  
Stepping down to battle another day Remember me for all time  
This determination is a vital part of me  
Surrender now or be counted  
With the endless masses that I will defeat Come on bring it, don't sing it, better believe it Broken down till your  
hope has died  
Beat down 'til victory's mine  
Stand up and show me some pride  
And now are you ready? I'm one with the warrior inside  
My dominance can't be denied  
Your entire world will turn  
Into a battlefield tonight As I look upon you  
Through the warrior's eyes  
Now I can see the fear  
That will ensure my victory this time I can't be told to compromise this  
They'll never doubt the body lying at my feet  
A most formidable reminder  
They will speak my name for eternity I have no need of any guidance  
I am a weapon, powerful beyond belief  
Seen through the warrior's eyes  
I never need to question how to defeat you Come on bring it, don't sing it, better believe it Broken down 'til your  
hope has died  
Beat down till victory's mine  
Stand up and show me some pride  
And now are you ready? I'm one with the warrior inside  
My dominance can't be denied  
Your entire world will turn  
Into a battlefield tonight As I look upon you  
Through the warrior's eyes  
Now I can see the fear  
That will ensure my victory this time You can't hide now  
I am the warrior  
So decide now  
How they'll remember you Do not hide now  
Act like a warrior  
Show your pride now  
Solidify your place in time I'm one with the warrior inside

My dominance can't be denied  
Your entire world will turn  
Into a battlefield tonightAs I look upon you  
Through the warrior's eyes now  
I can see the fear  
That will ensure my victory this timeI'm the one with the warrior inside  
The evidence can't be denied  
The entire world will stare  
Into this battlefield tonightAs I stand before you  
With a warrior's heart  
Now I can feel the strength that will  
Ensure my victory this time
