Suddenly

Hear'say

Written by C.Dennis / O, Paul.
Having fun getting sun moving on
That seemed to be the thing for me
Single and so happy
Hit the town getting down play around
That's all I wanted to do until I saw you
You came along and proved me wrong
Shattered every dream I knew
I'm so glad I found you
Chorus
Suddenly I can see I never knew love before
And it changes everything
And it's so exciting
Suddenly I can see 1 never knew love before
Cos it took a hold of me
Out of nowhere suddenly
Suddenly... Love has got a hold of me
Be a tease a tease hold the keys love and leave
I thought that I was in control
But I'm captured body and soul
Don't you see you and me destiny
I thought I've been in love before

But there is so much more
You came along you were the one
Boy it's like a dream come true
I'm so glad I found you
Chorus
Suddenly I can see I never knew love before
And it changes everything
And it's so exciting
Suddenly I can see I never knew love before
Cos it took a hold of me
Out of nowhere suddenly
Suddenly... Love has got a hold of me
Suddenly out of the blue
You came along like a dream come true
I wasn't looking but you came to find me
Heavenly angel there to guide me

Try as I may I couldn't go wrong
Cos you were waiting there all along
We had a bond a genuine connection
Cos destiny is the only direction
